NSE launches cloud-based research facility NSE Data Room

13 April 2021

NSE on Monday said it has launched a cloud-based research facility -- NSE Data Room (NDR) -- to encourage research based on Indian capital markets, towards facilitating researchers to access and analyse historical orders and trades data.

Such a facility will not only allow usage of data available within NSE but in turn will also provide an enabling platform that paves the way for a wider gamut of research opportunities, the exchange said in a statement.

The NDR is a cloud-based data repository system with basic analytical tools and a software environment that can be accessed from any part of the country.

In order to access the NDR for their research objectives, the exchange said that interested researchers need to send research proposals to NSE's Economic Policy and Research (EPR) department.

The review process for submitted proposals would include approval from an independent, external committee of referees, consisting of eminent academics in the field.

Following this, they would be eligible for an NSE Research Grant (NRG) in the form of a time-bound access to the NDR to pursue their research interests. Such a grant will not involve any other consideration, monetary or otherwise. NSE said it has undertaken several initiatives over the years to encourage research in the field of finance and corporate governance.

The NDR platform is expected to facilitate these initiatives further and support policy formulation through seamless access to market microstructure data.

एनएसई ने क्लाउड-आधारित शोध सुविधा डेटा रूम की शुरुआत की

By भाषा | Follow  | Published: April 13, 2021 05:08 PM | Updated: April 13, 2021 05:08 PM

नयी दिल्ली, 13 अप्रैल नेशनल स्टॉक एक्सचेंज (एनएसई) ने सोमवार को कहा कि उसने भारतीय पूंजी बाजार के बारे में अनुसंधान को प्रोत्साहित करने के लिए क्लाउड-आधारित अनुसंधान सुविधा - एनएसई डेटा रूम (एनडीआर) शुरू की है।

शोधकर्ताओं को एनडीआर के जरिए ऐतिहासिक आदेशों और कारोबारी रुझानों तक पहुंच मिलेगी।

एनएसई ने एक बयान में कहा कि इस सुविधा से एनएसई के पास उपलब्ध डेटा का उपयोग किया जा सकेगा और साथ ही इससे व्यापक अवसरों के रास्ते भी खुलेंगे।

एनडीआर एक क्लाउड-आधारित डेटा भंडार प्रणाली है, जो बुनियादी विश्लेषणात्मक उपकरण और सॉफ्टवेयर से लैस है और जिसका इस्तेमाल देश के किसी भी हिस्से से किया जा सकता है।

NSE launches cloud-based research facility NSE Data Room

PRESS TRUST OF INDIA

New Delhi, April 13

The National Stock Exchange (NSE) on Monday said it has launched a cloud-based research facility – NSE Data Room (NDR) – to encourage research based on Indian capital markets. It will facilitate researchers to access and analyse historical orders and trades data.

Such a facility will not only allow the usage of data available within NSE but in turn will also provide an enabling platform that paves the way for a wider gamut of research opportunities, the exchange said in a statement.

Accessing NDR

The NDR is a cloud-based data repository system with basic analytical tools and a software environment that can be accessed from any part of the country.

In order to access the NDR for

research objectives, the exchange said interested researchers need to send research proposals to NSE's Economic Policy and Research (EPR) department. The review process for submitted proposals would include approval from an independent, external committee of referees, consisting of eminent academics in the field.

Following this, they would be

eligible for an NSE Research Grant (NRG) in the form of a time-bound access to the NDR to pursue their research interests. Such a grant will not involve any other consideration, monetary or otherwise.

The NSE said it has undertaken several initiatives over the years to encourage research in the field of finance and corporate governance. The NDR platform is expected to facilitate these initiatives further and support policy formulation through seamless access to market micro-structure data.
